

Triumph Tiger 1200 GT / RALLY

Product Name: **Slip-On Line (Titanium)**

Product code: **S-T12S06-HJA**

Approval: W/O

MSRP ex. VAT: 955,00 €

INFO

The muffler outer sleeve is made from high-grade titanium, with a stainless-steel link pipe and muffler inner structure. Finished with a carbon-fibre end cap and heatshield, this exhaust reduces weight by 37.7% (1.4 kg). The new design offers great durability and personalization for the motorcycle. With a heatshield that has been totally designed from scratch, the package provides passenger and gear protection, while delivering a unique appearance. Power gains of 0.8 kW (1.1 hp) at 8,300 rpm and torque increases of 0.9 Nm at 8,150 rpm – when compared to a Triumph Tiger 1200 equipped with the standard stock system and tested on the Akrapovič in-house dyno – combine with a perfect throttle response. A deep, vivid, and sporty sound is emitted from the exhaust, which has an EC/ECE type-approval certificate and is a simple plug and play installation with no remapping needed.

Exhaust system is compatible with original Triumph side cases.
