INFO

Slip-Ons represent the first step in the exhaust system tuning process, and they offer a great balance between price and performance. Change the nature of your bike by adding more power, improved performance, and the unique Akrapovič sound. Everything packed in stylishly designed Slip-On exhaust systems. This slip-on system is lighter than stock, which is achieved with various materials and construction, with the black-coated titanium outer sleeve with a monochrome logo sticker. Featuring a newly design carbon fibre end cap and heatshield.

It has a simple plug-and-play installation, and is fully EC- and ECE-compliant.

The exhaust system is compatible with original Suzuki cases.
